The 'Mans Candle' is a range of candles that are designed specifically for men. In our pursuit to design a non-gadget gift for men, we looked at candles and realised that all candles are designed purely for women and surely men also want to burn candles to make their home smell good, after all they now wear perfume (aftershave) and carry handbags (manbags)! We envisage them initially to be bought by women for men as a novelty gift and after that due to their masculine feel men buying them as well.
