LITTLE BEAU SHEEP

Naturally British

100% Wool Laundry Balls

Simple, gentle, natural... these 100% wool laundry balls help soften clothes naturally, increasing fluffiness and as the dryer tumbles, eliminating the need for fabric softeners or dryer sheets. They are also much quieter and more environmentally friendly than the plastic alternatives. Just pop all three balls into the dryer for a small load of laundry. Or for larger, more heavy duty loads I'd recommend six or more. Why not add a few drops of your favourite laundry fragrance to the balls before use to make your laundry smell wonderful?

Felted Soap

Wrapped in 100% natural wool and enriched with pure lanolin these felted soaps are gentle on your skin. The wool acts as a built-in flannel and the soap lathers through it, eliminating the need for additional exfoliators. Naturally antibacterial and odour resistant, the wool felts to the soap with continued use until all you are left with is a small ball of wool that is completely biodegradable. The layer of wool also makes soap less slippery and makes the bar last a lot longer... and it adds a bit of fun to your bathroom!
