

About Kodes

Kodes are award winning handmade jewellery and glasses chains handmade in North London by Morena Fiore.

Morena is the Designer Maker and founder at Kodes which she started in 2015.

Having had Alopecia (an illness which causes all your hair, eyebrows and eyelashes to fall) since she was 12 years old, Morena started Kodes from the need to express herself through jewellery, something she realised she had been doing for years, as a way to make up for not being able to express herself through (the lack of) her hair.

Morena came to the UK in 2003 to escape the Italian closed minded society where she was bullied as a teenager because of her hairloss in hope for a more diverse community.

Kodes pieces are inspired by Art Deco, geometric architecture and nature from Puglia, Morena's homeland.
