IMPERIAL  
CANDLES®

MADE IN ENGLAND

Our Harry Potter wax melt collection was born from a simple idea, to create a home fragrance experience that feels truly special. We set out to design a wax bar with a new level of detail, pairing intricate house inspired moulds with premium fragrance oils that took months of testing and refinement. Every bar is hand poured in the UK with care, crafted to deliver long lasting scent and a collectible piece that fans can enjoy again and again.
