

Medusa Feeder Defender

Protect your garden bird feeders and say 'back off big bird bullies' with this feeder defender from Simon King

Key Feature:

The Medusa feeder defender effectively discourages most large bird species from monopolising and rapidly clearing out hanging bird feeders, whilst still allowing easy access for smaller garden birds.

- Hanging chains prevent large birds such as Jackdaws, Magpies, Pigeons, Rooks & Seagulls
- Stops big bird bullies and food thieves
- Fits the majority of hanging bird feeders
- UK designed
