

# Gifts to Grow™

by Love Country

This special card is embedded with a variety of flower seeds.

A beautiful card and gift all in one.

With the decline in our bumblebee population, it has never been more important to give them a helping hand. By sending a plantable card you are doing your bit for the environment. We include seeds rich in nectar and pollen, ideal for bees, butterflies and pollinating insects.

**Instructions:** Soak the seed paper overnight in a bowl of water. Cover with a thin layer of compost and lightly water. For the first 10 days ensure the paper is kept damp to allow for germination of the seeds. Continue to lightly water when seeds appear but do not over water. Sit back and enjoy watching your mini wildflower meadow appear and wait for the bees and butterflies to show up to say thank you!

We recommend planting within 2 years.  
Keep out of direct sunlight to protect the seeds until planting.

100% Eco Friendly. Fully biodegradable.

10p is donated to the Bumblebee Conservation Trust when you buy this card.
